Popular Prejudice.

There are many young men who are in the habit of excusing their idleness and infellenency with the plea that they can do nothing without capital. The lack of means is the ready reply they make to every appeal to action. They imagine that they possess in themselves all the prerequisites to success but capital. If they only had capital, in addition to their other imagined virtues, they would asset tonish the natives with the boldness and brilliancy of their enterprise. They would grow immensely rich, and then bay the world under perpetual obligations to their gratitude by the magnificence of There is no market in London at tory, grammar and mathematics he proved himself efficient.
